ANNUAL INDEX

ENGINEERING EDUCATION

Volume 62, 1971-72

The page numbers in this index refer to the regular issues of Engineering Education for 1971-72:

1-80	September-October	415-494	February
81-144	November	495-574	March
241-310	December	771-850	April
311-414	January	851-954	May-June

NOTE: November part 2 is the ASEE Databook (pp. 145-240) containing the Society Yearbook. March part 2 is the *Annual Directory of Engineering College Research and Graduate Study*, which contains its own detail index (see pp. 758-769).

In this index, **boldface** type indicates subject headings; *italics* indicate authors; and the titles of articles and departments appear in regular type. Page numbers are explained above.

A

ACADEMOS, 479, 543
accreditation, 438, 442, 445, 467, 480
Acoustic Analog to Doppler Shift Speed Measuring Devices, An, 46
Action—Not Essays!, 126
activities, professional, 101
admission: 448, requirement, 442; standards, 126
advanced professional programs: 438, 445
Advertisers in This Issue, 80, 144, 308, 414, 494, 574, 850, 954
agricultural engineering laboratory: 33
Aids for Educators, 70, 140, 304, 410, 482, 568, 846, 946
air pollution, 463
Alden, John D., 799
ALGOL, 404
Ali, Ali M., 823
Analog Computer Solutions to the Falkner–Skan Equations, 827
analysis, graphical, 110
Andersen, L. Bryce, 794
annual conference abstracts (1971), 52
ANOVA, 812
applied humanities, 488
Applied Motivation—A Missing Role in Teaching, 519
applied science, 268
Arents, Chester A., 437
art: 271; students, 281
Art for Engineers, 271
arts faculty, 284
ASEE activities: About the Society, 147; ACADEMOS, 479, 543; annual conference (1971), 19; annual conference (1972), 324, 426, 542, 782; annual conference abstracts, 52; ASEE/Westinghouse Student Environmental Award, 15; awards (1971), 13, 222; Board of Directors, 152; calendar, 159; committees, 160; constitution, 155; councils, 168; Databook, 145; Design Projects Digest, 64; division officers, 186; effective teaching institutes, 72; Engineering College Research & Graduate Study Directory, March part 2; Engineering Technology Education Study, 327; ERM nominations, 410; First Tuesday, 23; Guide for Authors, 483; headquarters staff, 233; income and expenditures, 232; incoming president's address, 11; membership campaign (1971-72), 138, 841; membership list—see November part 2, p. 197; NASA/ASEE Summer Faculty Fellowships, 309; nominees for offices (1971-72), 250; "100" plan, 63; organizational chart, 167; outgoing president's address, 219; plenary session, 63; projects, 164; projects board, 162; publications, 62, 64, 69, 79, 133, 545, 826; representatives, 185, 190; section officers, 184; membership campaign, 865; division journals, 945
Associate Degree Graduate, The—Employment or Transfer?, 789
associate degree graduates, 789, 832
At the Interface—A New Kind of Engineering Educator, 98
attrition, 30, 442

B

Baasel, William D., 523
Barry, B. Austin, 25
BASIC (computer language), 39
Beakley, George C., 876
Bennett, V. P., 47
Berth, Donald F., 869
Best, Charles L., 258
Black, J. H., 265
Bolz, Harold A., 11
Boyd, John M., 892
Boyet, Howard, 117
Brainard, Alan J., 930
Bronwell, Arthur B., 938
Buethe, Chris, 26
Buthod, A. P., 933

C

Cadet Engineering—A New Experience in Engineering Education, 110
Camp, D. T., 36
Canjar, Lawrence N., 442
Can It Be Funded?—U.S. Office of Education Legislation and Programs for Educational Technology, 883
Case Study Reviews, 76, 305, 406, 572, 838, 942
case studies, 114, 261, 520
Challenge and Change, 781
Chapman, Kenneth, 836
chemical technology program, 835
Chem-TeC—Transfusion for a Tired Technology Program, 835
Cheng, S. L., 928
Chilton, Ernest G., 876
class scheduling via computer, 287
Coberly, Camden A., 101
college, land-grant, 121
Collins, W. Leighton, 66
Colvin, Samuel T., 907
communication skills, 451, 828
Computer Program to Assist in Determining Grades, A, 290
Computer Program to Counsel Engineering Students, 823
computers: 38, 404, 827; and grade determination, 290; class scheduling via, 287; counseling via, 823; student advisement via, 287; vibration studies and, 134
confluent education, 517
Conquest of Air and Space, The, 256
consulting, 460
Content Comes First, 533
continuing education, 108, 438
Conversational Linear Programming for Experiential Learning, 824
cooperative curriculum program, 26
cooperative education, 114, 828, 829
Cooperative Extension Service, 121
Cornell's Freshman Mini Courses—They Work, 869
Corser, George A., 543
Cost Factors in Engineering Technology Education, 919
counseling: 287, 794; via computer, 823
course: content, 533; design, 522, 523, 539; evaluation, 459, 541
courses: 794; air and space, 257; applied science, 253; case study, 253, 261, 520; fluid dynamics, 255; guided design, 280, 539, 541, 813, 814; mechanics, 290; multi-disciplinary, 128; problem-oriented, 253; project-oriented, 253; report writing, 814; socio-technic, 258, 261, 263, 265, 269, 278, 281, 402; technology, 253
Craig, A. J., 269
creativity, 31, 898
Cullinan, Harry T., Jr., 930
curricula, engineering technology, 43
Curricula in Transition, 65, 140, 299, 406, 843, 948
curricular changes, 911
curriculum: 445, 448; agricultural eng., 33; chemical technology, 835; cultural, 39; nuclear eng., 820
Cutchins, Malcolm A., 134

D

Dartmouth–Jersey City Program: Getting Engineering Students Involved, The, 38
Databook, 145
David, Edward E., Jr., 781
dean, role of, 104
Dean, Thomas S., 517
DeFiore, Leonard, 284
Defore, Jesse J., 327, 433, 511, 784, 857
degrees: associate 789, 829; engineer-

ing ('70-'71), 799; nuclear eng., 820; professional, 442, 466; technology ('70-'71), 805
Demand for Technical Personnel In Kansas City: A Case Study, 896
demonstrations, academic, 479, 543
department head, 25, 104
design: educational, 98; educational systems, 456; engineering, 535; guided, 280, 456, 539, 812, 814; institution, 460; NASA summer institutes on, 95; process, 259; projects, 36, 114, 294, 535; professions, 460; variables, 36
Design and Evaluation of an Instructional Unit in Technical Report Writing, 814
Design of an Educational System, The, 456
Design of an Interdisciplinary Freshman Course, 523
Design Projects Digest, 64
development: faculty, 101, 104; professional, 450
Dickason, Donald G., 394
Does Teaching Really Matter?, 25
Do You Know?, 6, 86, 244, 316, 420, 502, 778, 854
drafting, 829
Dynamics of Engineering Enrollment, The, 394

E

Eckley, Wayne, 820
ecological engineering, 15
ecology projects, 15
ECPD accreditation, 438, 442, 445, 467
editorial highlights (1971-72), 837
Editor's Privilege, 5, 85, 245, 315, 419, 499, 775, 855
Educating for Creativity, 898
Educating to Solve Environmental Problems, 925
education: chemical technology, 835; confluent, 517; continuing, 108, 438; cooperative, 114, 828, 829; engineering, 794; laboratory, 117; problems of, 786; technician, 448, 480; technology, 919; liberal, 902
Education for an Engineering Future, 786
educational aids: 70, 134, 140, 304, 410, 479, 482, 543, 568, 846; case studies, 261, 520; gaming models, 455; computers as, 134, 287, 290; demonstrations of, 544; field trips as, 27, 261, 270; for E.E. students, 46; value of television as, 547; workshop as, 47
educational methodologies, 517
educational programs: 823; formal, 101
educational systems design, 456, 539, 541
Effect of a Guided Design Course Pattern on Student Personality Variables, The, 812
effective teaching: case studies and, 520; demonstrations of, 543; evaluation of, 529; guided design and, 539; institutes, 72, 98, 104, 839; measurements of, 550; methodologies, 517; motivation and, 519, 523; role of student in, 520, 540; role playing and, 521; simulation games and, 521
Eisley, J. G., 256
electives, 533
electronic instruments, 117
Ellingson, William A., 879
Ellis, J. S., 294
Elton, Charles F., 30
Emerging Professional Schools, 558
Emerging Role for Universities, An, 107
employment: forecast, 809; of technicians, 832 (see also Positions Open and Positions Wanted)
engineering: extension, 121; image, 26, 400; for non-engineers, 261, 263, 265, 268, 269, 278, 281; nuclear, 820; projects, 40; sanitary, 463; societies, 809; research, 563
Engineering—A Cornerstone of our Society, 265
Engineering and Technology Degrees, 1970-71, 799
Engineering College Research and Graduate Study Directory, see March part 2
Engineering Design, 535
Engineering Education and the Law of Supply and Demand, 785
Engineering Education Must Broaden its Scope and Value, 50
Engineering for Non–Engineering Students, 252
Engineering for Secondary School Science and Mathematics Teachers, 26
Engineering is Decision Making—Teach That!, 278
Engineering for Non–Technical Students at the University of New Mexico, 268
Engineering Opportunity Program—A Special Program for Disadvantaged Students, 794
engineering students: characteristics of, 285; vocational interests of, 297
Engineering Technicians at Work, 391
engineering technology: curricula, 43; education, 480; Education Study, Interim Report, 43
Engineering Technology Education Study—Final Report, 327
engineers: Cuban, 478; electrical, 478; professional, 450, 480
Engineers and Arts College Faculty: A Study in Incompatibility, 284
Engineers and the Liberal Education: A New Course in Technology, 902
Engineers/Artists, 243
Engineers for Industrial Development Overseas, 828
English, 288
enrollment, 394
environment, department, 101
Environmental Engineering Intersociety Board, 463
environmental health engineer, 463
environmental studies, 262; education, 907; problems, 925
EPNE (A center for Information on Engineering Programs for Non-Engineers), 252
Epps, Edgar, 902
equations, differential, 933
evaluation: economic, 789; faculty, 95; of course design, 459, 541; teacher, 96, 529, 551
Examples of Professional Schools of Engineering, 442
Experiment on the Learning Effectiveness of Lectures and Recitations, An, 928

F

face-to-face instruction, 547
faculty: 108, 445; arts, 284; development, 101, 104; evaluation, 95; training, 95
Faculty Development—A Department Responsibility, 101
Fadum, Ralph E., 104
Falkner-Skan Equation, 827
Feldhusen, John, 541
fellowships, 309
field trips, 27, 261, 270
Final Committee Report on Objectives and Procedures for Accredited Programs in Engineering in the United States, 467
Findley, Marshall E., 288
Fireflies, Razor Blades, Ecology, and the Affluent Society, 556
First Tuesday, 23
Flammer, Gordon H., 519
Fluid Dynamics for Non–Engineers, 255
fluid motion, 134

Techniquest, 291
technology: 258, 402, 438, 786, 809; and society, 263; Bachelor of, 795; chemical, 835; degrees, 805; education, 43, 433, 511, 784, 919; education study, 327; enrollments, 400; graduates, 789, 832; mechanical design, 829; modern, 261; program, 835
Technology Education Comments, 433, 511, 784, 857
Technology and Society, 269
Technology/Engineering Articulation, 448
televised instruction, 547
tenure, 25
test, "t," 478
testing: 290, 292, 540, 553
Testing and Grading for Advance and Elective Engineering Courses, 553
Texas Tech University Welcomes the 80th Annual Conference, 864
theory: boundary layer, 827; fission reactor, 820
thermodynamics, 930
Thompson, Melvin, 794
Thompson, R. E., 933
Toward a More Humane Use of Technology, 93
transmission system, 816
Transportation Research Institute, 128
Trask, W., 291
Trends in Environmental Health Engineering, 463
Tribus, Myron, 425
Truxal, John G., 93
Tseng, M. S., 812
Tulane Program on Science, Technology and Man, The, 402

U

UNESCO grants, 528
Unified Agricultural Engineering Laboratory, A, 33
UNIPAC, 27
UNIVAC, 404
universities, functional responsibilities of, 108

V

vibration studies, 134

W

Wade, John W., 460
Wagner, G. R., 824
Wales, C. E., 278, 456, 539, 812, 905
WASTE-PAK, 17
water, purification of, 463
Webb, George R., 402
Weber, James A., 829
Wedekind, G. L., 110
Wehe, A. H., 925
Weidhaas, E. R., 126
We're Reorganized—So What?, 11
Whan, Glenn A., 268
Who Will Engineer the Future?, 92
Wiersma, Frank, 33
Williams, Leslie B., 18, 246, 434, 510, 785
Wilson, Bruce, 26
Wilson, Robert C., 550
Workshop—A Supplement to Undergraduate Classroom Instruction, The, 47

Y

Your Society's Business, 18, 246, 434, 510

Z

Zimmerman, Roger M., 26
